

# SUMMER THEATRE CAMP 6-14 YEARS

From June 23 to 27, 2025, Teatro Crystal will host a summer theatre workshop designed for children and teenagers aged 6 to 14. This immersive journey offers a unique opportunity to approach theatre, develop expressive abilities, and discover the joy of acting in a creative and stimulating environment. A unique opportunity to discover the fascination of theatre, develop one's creativity, and form new friendships.

Participants will bring to life a small performance, engaging not only in acting, but also in scriptwriting and production. They will learn to create characters, build engaging plots, and create scenography, props, and costumes.

Through voice exercises, stage movement, interpretation, and improvisation, participants will experience theatrical language in all its forms, refining communication skills, confidence, and creativity. Beyond the performative aspect, children will have the opportunity to work on props and theatrical games for a complete and engaging experience.

A true journey into the world of entertainment. Beyond the performative aspect, participants will have fun with practical activities related to scenography and theatrical play. The experience will culminate with a final show open to family and friends.
